# LIGHT UP THE SKY & LIGHT UP THEIR FACES

# THE DRONE LIGHT SHOW

## GIVE YOUR AUDIENCE A NIGHT

# THEY'LL REMEMBER

Meet the science behind our swarm-equipped lighted autonomous drones, and discover a truly unforgettable spectacle when the sky becomes a stage and your imagination takes flight. We fuse hundreds of bright, custom-made LED lights with soundtracks to choreograph a show that's not only unique and mesmerizing, but also environmentally-friendly and cost-effective.

We've been privileged to work with some amazing organizations - both big and small - from SeaWorld and Toyota to Lake Las Vegas and ArtPrize. Every show is unique. Every show has its own objectives and challenges. Still, one thing remains the same: Every show is a show stopper.
